

# Northlake School Garden

Wondering what's going to happen in the Northlake Community Garden this summer? Here's the scoop:

**GARDEN DAY:** Every Wednesday from 10:00 to noon, adults and children from all over town will come to work, eat, play, make scarecrows, chase those darn rabbits, hang out in the bean tipi...

**PRODUCE SALES:** At the same time, kids will run a produce stand open to the public. It's been a tough spring so mixed salad greens are all we'll have at first. We'll have more variety as the summer stretches on.

**PARKS AND REC SUMMER PROGRAM:** This group will be spending time in the garden and orchard this summer, but the exact schedule is still being worked out.

**SUMMER WATERING:** Much of the garden will be watered with our automatic irrigation system, but there will still be areas that need to be watered by hand. As in the past, we are asking families to sign up for one week of water duty this summer. A separate email will go out addressing this.

**IT'S A COMMUNITY GARDEN!** Please feel free to come spend time in the garden and orchard anytime! The more it gets used, the better. Northlake alumni need to know that they can always come back, that it's still their garden.

See you this summer! For more information contact Ian @ 431-6725
